
a Recording
M channels × T samples
1
2
3
4
5
6
x_i
x_j
time
nodes: channels; edges: coupling
b K statistics
one weighted graph and one M × M matrix each
$A^{(K)}$
$A^{(a)}$
$A^{(b)}$
$i \to j$
0.43
$j \to i$
0.17
d Agreement matrix R
upper triangle kept as z
K(K − 1)/2 entries for any M, T
z
a
b
K
